Objective

Leveraging expertise in full-stack web development, particularly within the **MERN** stack, with hands-on experience in delivering innovative web solutions. Dedicated to enhancing user experiences through responsive design and real-time features, with a focus on creating transformative applications that integrate modern technologies for impactful digital interactions.

Technical Skills

- **Programming Languages:** Javascript.
- **Frontend:**
  - React.js, Tailwind CSS, Redux
  - HTML and CSS
- **Tools:** Git and GitHub.

Projects

E-Commerce - Fashion Trends   Live Link
- Developed a responsive fashion e-commerce website using React
- Showcased trending products with filters by category, gender, and price
- Implemented product detail pages with images, sizes, and descriptions
- Built shopping cart functionality with real-time price updates
- Used Git for version control and project management

Redux State Management - To-Do-List   Live Link
- Implemented Redux to manage complex application state in a scalable way
- Used Redux store to maintain global state across multiple components
- Applied actions, reducers, and dispatch to handle data flow and UI updates

CRUD Operations - To-Do-List   Live Link
- Built interactive UI components to perform Create, Read, Update, and Delete (CRUD) actions using React.js
- Utilized React state and hooks to manage dynamic form inputs and data lists
- Created responsive forms to collect and update user input effectively
- Designed delete and edit functionality with conditional rendering for better user experience

Education

UG (B.Tech)   2019 – 2023
CGPA: **8.06 / 10**
Chennai, Tamil Nadu

HSC (12th Grade)   2018 – 2019
Percentage: **68.5%**
Thoothukudi, Tamil Nadu

SSLC (10th Grade)   2017 – 2018
Percentage: **85.6%**
Thoothukudi, Tamil Nadu
